Frog vs. Toad

Both frogs and toads are amphibians. Frogs live mostly in the water, while toads live mostly on the land.

Frog

- Hind legs:** Long, powerful jumping legs;
- Eggs:** Frogs lay eggs in clusters, young live in water;
- Skin:** Moist, smooth, looks slimy;
- Largest Weight:** Largest: Goliath frog 6.6 pounds;
- Teeth:** Frogs have teeth in their upper jaw;
- Eyes:** Eyes bulge out, more round;
- Body:** Have a narrow body;
- Protection:** Camouflage and fast jumps.

Toad

- Shorter legs for walking;
- Toads lay eggs in long chains, some toads give birth to live young, young live in water;
- Dry, bumpy, rough skin;
- Largest: Cane toad 5.8 pounds;
- Toads have no teeth;
- Eyes are lower and more oval shaped;
- Have a wide body;
- Camouflage and poison glands behind their eyes.

Now that you know about frogs and toads, circle the correct answer.

Which one would jump higher?

frog

toad

Which one likes to live on the land?

frog

toad

Which would win in an Olympic wrestling match, a Goliath frog or a Cane toad?

frog

toad

Which one has teeth?

frog

toad

Which one uses poison as a defense?

frog

toad

Losing Power

by ReadWorks

"Attention, students!" Ms. Johnson clapped her hands to get everyone's attention. "We will be dismissing school early today"-Ms. Johnson paused as a ripple of excitement passed through the classroom-"because of the blizzard. We've called your parents and they should be picking you up shortly. Those students who ride the bus should head outside immediately."

Karla stood up and quickly packed away her notebooks and pencils. She wanted to get one of the good seats on the bus and knew she had to hurry. Outside, it was pure chaos. The first snowflakes were already starting to fall and crowds of children waited to get on the bus. By the time Karla hopped off the bus at the end of her block, the snow was falling thickly. The ground was covered in white and the bus's tires made black paths in the powder. Karla watched as new snowflakes quickly made the tracks disappear again.

When Karla walked through the front door, her parents were already home. They had been to the grocery store and stocked up on candles, water, milk, bread, and canned food for several days. Six years ago, there had been a blizzard, and her parents weren't prepared. This time they wouldn't make the same mistake. Karla couldn't remember the last blizzard; she had only been three years old at the time.

"Why do we need candles, Dad?" Karla asked.

"Sometimes, the electricity goes out when there are blizzards. Snow builds up on power lines and all of that weight can cause a power line to break. Once a power line breaks, our electricity goes off. When this happens during a blizzard, it can take the electric company longer to fix the problem," said her father.

"Because of the snow?" Karla asked.

"Exactly," her dad nodded in approval. "The roads are often blocked so it's harder for the trucks to make it to the broken power lines."

They switched on the television to watch the news. The weather forecast said that it was going to snow for another twelve hours. Karla smiled. If it snowed for twelve more hours, she would definitely not have school the next day.

Karla spent the rest of the afternoon building a snowman and participating in the neighborhood snowball fight. When she came in for dinner, her cheeks were red from the

cold. The house felt warm and toasty. Karla decided that she liked blizzards. Karla had just bitten into her enchiladas when all of a sudden the power went out. The house was plunged into total darkness.

"Karla?" her mother said. "Are you okay? I'm going to get some candles." A moment later a light flickered as her mother set a candle in the middle of the table. Karla thought the shadows that the candlelight cast on her parents' faces made it look like they were about to tell ghost stories. The darkness suddenly seemed a little bit scary. Her father went outside and came back to report that the entire neighborhood didn't have power. It looked like the power wouldn't come back on that night.

"Will the heat go off?" Karla asked her dad. "Will we be able to use the water?"

"Don't worry, sweetie," said her father. "The heat and the water are both still on."

Karla looked at him, confused. How could the heat and the water work if all of the electricity didn't work? "Come with me," her father said. "I'll show you in the basement."

In the basement was a big metal tank with pipes coming out of it. "That's the boiler," said her father. "Our heat runs on gas, not electricity. As long as the gas pipes don't break, we'll still have heat. The water is the same way. It runs through pipes in the ground and as long as those pipes don't freeze, we'll be able to have running water."

Karla thought about this. "So there are three different systems in our house?" she asked. Her father nodded. "Cool!" she said.

They went back upstairs and finished dinner. Afterwards, Karla and her mom made s'mores by melting marshmallows over candle flames. When Karla went to sleep that night, she felt lucky. It was cold and snowing outside but she had a warm bed to sleep in.

prepared pre · par · ed**Advanced Definition****adjective**

1. ready, fit, or equipped for something.

She was not prepared for the exam.

I was not prepared for his violent reaction.

2. composed in advance; not impromptu.

a prepared statement

These are some examples of how the word or forms of the word are used:

1. Taso's big day came. Paul and Jimmy were prepared. They had rounded up all of Taso's friends and called Taso out from his home.
2. Because earthquakes cannot be predicted, it is difficult to be fully prepared when they happen. Even s
3. When Emine traveled to Cairo for a two week vacation, she wasn't prepared for what happened the moment she stepped off the plane. The he
4. There's also a halal food stall at E-lyn's school. Halal food is food that has been prepared according to the dietary laws of Islam. A typical dish is mee siam, a protein-rich meal of thin rice noodles with soybeans, tofu, boiled eggs, and garlic chives.

stock stock

Definition

verb

1. to supply with goods.

They stocked the shelves with cans.

noun

1. things that you keep that are ready for use or for sale at any time; supply.

My parents keep a stock of extra food in the house.

That store has a large stock of shoes in all sizes.

2. the value of a company, divided into equal shares and sold to people or groups.

They own several shares of stock in a software company.

His parents were satisfied that his bride-to-be was from good stock.

7. a small theatrical company, or the repertoire of such a company.
8. a broth used as a base for soups and sauces.
9. any plant that provides cuttings.
10. a base, handle, or frame for certain implements.

a stock of a whip

adjective

1. regularly in supply.
2. often used; commonplace.

stock jokes

3. employed in handling merchandise and inventory.

a stock boy

4. of, relating to, or involved in the production of livestock.

transitive verb

1. to supply with goods or livestock.

They stocked the shelves with books.

2. to keep available for future use or sale.

We don't stock shoes.

intransitive verb

1. to keep or accumulate something for future use (often fol. by up).

Spanish cognate

stock: The Spanish word *stock* means stock.

These are some examples of how the word or forms of the word are used:

1. The prices of companies on the stock market had skyrocketed to unrealistic amounts. Companies just weren't worth that much.
2. By the end of the decade, the stock market crash of 1929 and the Great Depression caused many parks to close.
3. By the end of the harvest, usually in March, the root stock is spent and used as compost.

Forcing a plant deprives it of photosynthesis and weakens the plant.

4. They had been to the grocery store and stocked up on candles, water, milk, bread, and canned food for several days. Six years ago, there had been a blizzard, and her parents weren't prepared.
5. If he stared down long enough to get that tingly feeling, he'd grip the bar in front of him, take stock of the bar between his two legs, and reassure himself that he was secure. Conversation helped distract him.
6. Gus's morning duty is to "go shopping" and purchase any new stock the truck needs for the day. He buys these items from his old friend Dimitri Tsirkos, who got Gus into the business and now runs the Mister Softee station.
7. "The majority of our stock is damaged, as well as a lot of our electronic equipment, but the city is going to compensate us," said Dajuah Morgan, Assistant Manager of the American Apparel store at 140 West Broadway. Once the basement had filled with water, as much as \$50,000 worth of merchandise was badly damaged, but she predicted the store would reopen again early that evening.

Name: _____ Date: _____

1. Why is Karla able to leave school early?

2. Who are the two most important characters in the story?

3. Blizzards can have both good and bad effects. What evidence in the story supports this conclusion?

4. Why does Karla decide she likes blizzards in the first half of the story? Use evidence from the text to support your inference.

5. What is the main idea of this story?

6. Read the sentences and answer the question.

"When Karla walked through the front door, her parents were already home. They had been to the grocery store and stocked up on candles, water, milk, bread, and canned food for several days. Six years ago, there had been a blizzard, and her parents weren't prepared. This time they wouldn't make the same mistake."

What does the phrase "stocked up" mean in this text?

7. What word or phrase best completes the sentence?

The electricity can go out when there are blizzards _____ snow can cause power lines to break.

8. Why are the heat and water in Karla's house still working properly, even though the

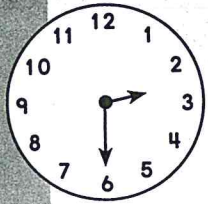

electricity doesn't work?

9. Describe one thing Karla's dad explains to her in the story.

10. At the end of the story, the author writes, "When Karla went to sleep that night, she felt lucky." Explain how the blizzard made Karla realize she was lucky by the end of the story. Use evidence in the text to support your answer.

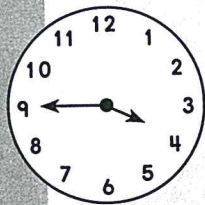

As Time Goes By

Answer the questions. Be sure to include **a.m.** or **p.m.** in your answer if appropriate.

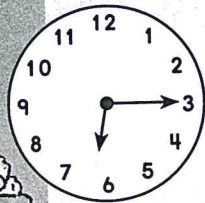

Waldo the Wondrous started his magic show at 2:30 p.m. He finished his show at 4:00 p.m.

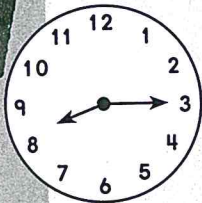

How long was his show? _____

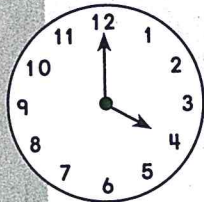

The Dynamites started baseball practice at 3:45 p.m. If practice lasted for 1 hour and 15 minutes, what time did it end? _____

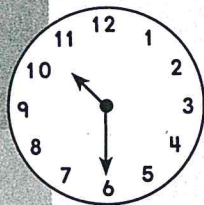

Justin went to see a movie at Startime Cinema that was 2 hours and 5 minutes long. It started at 6:15 p.m. What time did it end? _____

The Bohidars ate pancakes from 8:15 a.m. to 9:00 a.m. How long were they eating pancakes? _____

Raman's bowling party lasted for $1\frac{1}{2}$ hours. If it ended at 4:00 p.m., what time did it start? _____

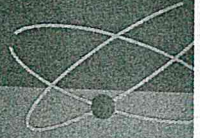

Rock Daddy's radio show is on from 10:30 a.m. until 11:45 a.m. How long is his show on? _____

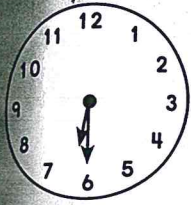

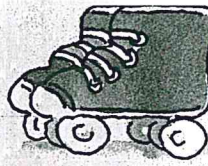

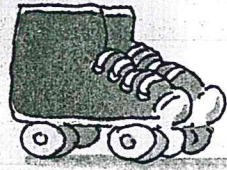

Time and
Money

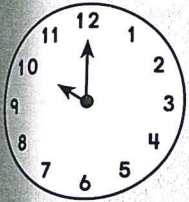

Elapsed
time

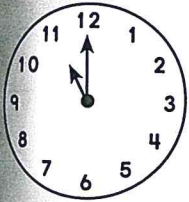

p.m.

The skating party at Roxie's Rollerdomo started at 6:30 p.m. and ended at 8:15 p.m. How long did the party last? _____

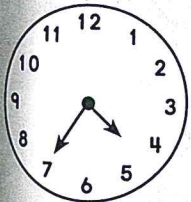

Kenji went to the park at 10:00 a.m. and left at 11:55 a.m. How long was he at the park? _____

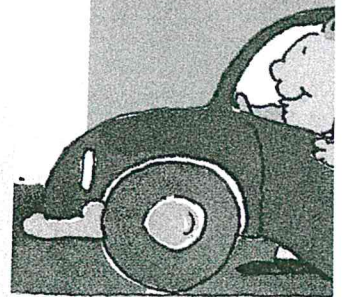

Bridget gave a 15-minute speech on her trip to Mexico. She finished her speech at 11:00 a.m. What time did she start her speech? _____

a.m.

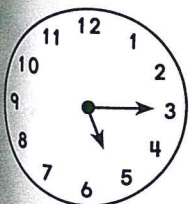

At 4:35 p.m., Bill Brawny got a flat tire. It took him 20 minutes to change the tire and get back on the road. At what time did he get back on the road? _____

Time and Money

Elapsed time

Rosa's friends came over yesterday and stayed for 2 hours. If they left at 5:15 p.m., what time did they arrive? _____
